Medium

Small bottle of Refined Linseed Oil
+ Small container of Solvent

You will need medium to thin your oil paints.

My preference is a half and half mix that combines one part REFINED LINSEED OIL and one part SOLVENT.

(See Medium Mix Recipe in Introduction to Using Oils in Flow Membership Library)

Solvent choices include Gamsol by Gamblin, Turpenoid by Weber, or Oil Paint Dilutant/Cleaner Zest-it.

You only need one of the solvents to mix with your refined linseed oil.

Please Note: Zest-it Oil Paint Dilutant/Cleaner is the one I use. It is both non-toxic and safe for flying. Unfortunately it is not yet available in the US and must be ordered online from the UK. Rosemary and Co (RosemaryandCo.com) located in the UK.

Painting Surfaces

The smooth surface of Ampersand Museum Series Gessobord is my preferred choice for painting surface.

It's a good idea to keep a variety on hand including some 9 x 12's, 8 x 8's, and 8 x 10's.

Note: Canvas (either stretched or on panels) works fine too—it just behaves a bit differently due to the texture difference between canvas and gessobord.
